DEAR MS. DIXON,,

Sept 10, 1999

1 I AM opposed to the Yucca project, which is AN irresponsible plan that does not protect the environment, the public, nor the planet. This dangerous ploy to falsely contain nuclear waste has no factual basis to go forward. Please make my opinion known to the decision makers. There
2 must be an alternative. Also I AM opposed to shipping nuclear waste ANY where AS the tremendous risk of accidental spillage could CAUSE irreparable damage to any ecosystem. Thankyou AGAIN for sharing my concern with other respondants. Please keep me informed about the project status, and ANY qualms that you MAY have yourself professionally, personally, as well AS questions of your colleagues and associates.

Sincerely,
ERIC SUNSWHEAT
