Dear Ms Dixon,

I oppose the transportation of nuclear waste to Nevada. I oppose the use of nuclear energy to begin with. After the first 25 years when no safe disposal system had been developed, it was irresponsible for the utility companies to continue to use nuclear energy. It is irresponsible for the U.S. Department of Energy to continue to support nuclear energy, to say it is an economical source of energy by overlooking the cost of disposing the waste is also irresponsible.

Josephine Niemann, SSM
