Dear Wendy, 2-1-00

EIS001235

FEB 08 2000

As a member of the Kirkwood, Missouri community which happens to be on a RR line I urge you to reconsider the 50 year plan of transporting nuclear waste across country. Is there an alternative? Such as keeping the waste on site and ~~disposing~~ disposed of locally. I am concerned about the safety hazards of transporting waste across country. I would appreciate any answers you can provide.

Sincerely,

Liz Moore
