Dear Wendy.

1 I don't think that the Nuclear waste should be in the Mountain that you are talking about they need to find a place that is good enough to hold all of this stuff. But they need to figure out a way to use it by like energy or cancer helps itself. they put it in a mountain than it can heart the mountain. The mountain is a big mountain that's weigh they want to keep it in it but i don't think it should be in there.
