Dear Ms. Hanlon

How can the Secy. of Energy be preparing to recommend Yucca Mountain for a high level nuclear waste dump when thousands of public comments on the Draft Environmental Impact Statement have not been addressed?

Without a Final Environmental Impact Statement, a detailed transportation scenario or a licensing rule, the Dept. of Energy lacks the basis for consideration of site suitability.

The public cannot have confidence in any recommendation that arises from such a dramatically flawed process.

I urge you to abandon the Yucca Mountain project!!

Sincerely,
