EIS001645

Dear Sir / Madame,

1 I am writing to protest the shipping by rail and highway through the midwest to Yucca Mountain, all the nuclear waste from various sites throughout the Eastern half of our country. This action could endanger the innocent lives of people living along these routes; it will lower property values; it will create an atmosphere of mistrust and apprehension, & nervousness in calm neighborhoods. Furthermore it will postpone indefinitely the replacement of a dangerous technology by an earth-friendly approach.

Please abandon this re-location project.

Sincerely,

Margaret Gaskill
