Dear MS. Dixon
hello, I'm a student at Rosemary Clark
middle School. We have been learning
1 about Radioactivity. I think that the people
who made the waste should keep it. storing
waste here will put our lives in danger.
2 I just want to say its wrong. and I also
would like to ask, why us? what did we
do to deserve this why should we have
our lives ~~taken~~ putting in danger. and why
are they going to bring it all the way
over here. I mean there is plenty more
mountains in world. I'm sorry but its
common sense. why? why put helpless
lives in danger. please make them keep it
thank you.

Sincerely Richard G. Ellington III
