North Las Vegas, NV 89036-0307

Dear Ms. Dixon,

1 I am an 8th grade student of Rosemary Clarke Middle School. I am concerned about the transferring of nuclear waste to Yucca Mountain because it may result in a very hazardous accident. Nuclear waste could put many people, including children, in danger. This is not at all a smart decision.

2 I believe each state should take responsibility and take care of the waste that they produce. This is a better idea until we can make a decision that doesn't put people in danger, now and hundreds of years in the future.

Concerned,

Katy Among
