North Las Vegas, NV 8903-0307

Dear Ms. Dixon, EIS manager:

I am Esther Eichler. I'm a student at Rosemery Clark Middle School. My class is studying nuclear waste, and its affects.

1 I am concerned that putting waste here at Yucca Mountain can prove harmful to our environment. You know that the waste will leak and Yucca Mountain is over our aquifer. It could contaminate our water! I do not want our next generation to be mutants, because we drank contaminated water!

2 I belive that the power plants that make the waste should keep it!
It is ours and we do not want it!!

Future Voter,
Esther Eichler
