Dear Ms. Dixon, E.I.S. Manager:

My name is Josh Johnson. I go to Rosemary Clark Middle School. My school is researching nuclear waste.

1 I am concerned that you are bringing nuclear waste into a nearby location in Nevada. I think that if you make the waste you should store it in your own state.

2 If there is a leak in a cask it would penetrate into the ground rather quickly. Our water supply, could be contaminated if this was to happen we would slowly die.

Sincerly
Josh Johnson
