Dear
Dr. Jane,

We really don't know any comments to make - except we hope the project
1 is settled before we both die - Lawrence is less then 6 weeks of being 85 and I'm right behind him, almost 79 -

He's owned the property there (40 acres) close to 50 years and always paid the property taxes.

So the sooner the better for us and we truly believe that is an ideal spot for what the government needs - it has to be put somewhere on the earth -

Thanks for sending the stuff, tho most of it is over our heads. And hope it will be settled soon - Bet that's good for a laugh -

Sincerely,

Lawrence and Helen McClay
2500 Damien ave., #107
La Verne, Calif. 91750

Thanks again -
