Re: Yucca Mt. Site - Comment -

To Whom it may Concern,

As a citizen of the United States and now living in Nevada, I would like to tell you - NO - never - We don't care how much money etc. you may try to bribe with. If it isn't good enough for the back yards that the waste now resides in, it isn't good enough for our back yard.

Try to remember agent orange, + they said that was tested, OK, proven, etc - Well guess what. There will never be enough money for the U.S. government to pay for the mess that the wrong decision of allowing Radioactive waste to any kind to be stored at the Yucca Mt Site. Will bring to the State of Nevada - or our Nation.

Sincerely -
Jane Query
Nevada Citizen
