To Yucca Mountain Site Characterization Office

Thank you for your letter of 8/28/01 asking for comment on DOE's Federal Register Notice (66 FR 43850) of 8/21/01. Here it is:

Prior to the Secretary making any recommendation to the President to proceed with the Yucca Mountain Site, full consideration must be done (including public hearings and an E.I.S.) on DOE's transportation plan to move all the categories of nuclear waste to Yucca Mtn. Surely, DOE should move no further toward development of the Yucca Mountain Site until its transportation plan to move the waste there is exposed to full public scrutiny. There could be unacceptable transportation implications that make the Yucca Mountain Site unacceptable.

Please acknowledge receipt of this comment within 30 days.
