To Carol Hamelon:

Dear Fellow Citizen of the USA,

I am a Very Senior person who has lived here since 1940, I love my desert Home, I came here for health reasons - Is there a valid reason you want to Kill me and millions of other people? Which will happen if you shove that cancer "stuff" on us. Just The Terror in N.Y. Enough "whole sale killing to satisfy you in the DOE??

I do hope you ~~have~~ TAKE the time and heart to read the enclosed clippings I am sending you. It is a small sample of not only our state but others to.

If you permit this to happen you will have to live with the guilt of causing this violence on us.
