Comments: (If possible, please reference section and/or page number in document if applicable.)

Our tour guide, Don Kane, and the workers at the site were very knowledgable and open. I am convinced that the storage of nuclear waste would be safe at the Yucca Mountain facility.

With our country at war energy is of utmost importance. With a source as clean and safe as nuclear power, I believe we have a moral obligation as well as an environmental responsibility to put our best foot forward in this area.

As far as transporting the waste, I drive the "Spagetti Bowl" in Las Vegas every day at rush hour and the thought of seeing a truck hauling it would not bother me.

If our State of Nevada could benefit economically, I think it should and if we don't because of fear mongering we as voters are silly and our politicians should suffer their disapproval at the voting booth.
