Ms Carol Hanson,
U.S. Dept of Energy
Yucca Mtn. Site Characterization Office

Dear Ms. Hanson,

I would like to express my deepest concern with regard to the proposition of storing nuclear waste so proximal to a mjor city such as Las Vegas.

Only 90 miles separates one million of our citizens from the most dangerous substance known to mankind. Please let me know what I as a individual citizen can do to put a stop to this MAD proposal.

Thank You

Dean Mirsoltani
