Before I came to the science center in Las Vegas, Nevada, I knew very little about nuclear waste disposal. The exhibit was very enlightening.

With proper education, such as this exhibit, people would most likely accept the Yucca Mountain waste disposal site. This is the key.

Furthermore, why let the average citizen decide these very important issues? Why not let the scientists, the people who really understand it, decide?

In closing, I am in favor of the Yucca Mountain nuclear waste site.
