Comments: (If possible, please reference section and/or page number in document if applicable.)

Don't expect us to live next to your railroad that you plan to build 1½ miles between our 2 homes. One of them is a hot spring, wet lands resort and it has been used to heal the sore aching muscles of hard working people for thousands of years and could continue to do so for thousands more years. We consider the intrusion of a nuke railroad to be unexceptable. It will destroy the PEACE and TRANQUILITY of our place and our lives. Put it in your own back yard if you think it's so safe.

By the way your going to have to pay us for the property of ours that you plan to pull your stinking, poison radioactive garbage past. It will be your expense to buy us a new hotsprings, wet lands and move us there
