**Comments:** (If possible, please reference section and/or page number in document if applicable.)

Hold nuclear waste in dry storage casks until Science finds a way to reuse/recycle/de-toxify it. Better still, stop generating the stuff! Do not risk contaminating the groundwater for animals - including human animals - for up to 10,000 - and more! - years into the future. A year ago I spoke testimony ~~in tio~~ re: the potential for ~~nuclear~~ terrorist activity on the nuclear waste in shipment. After 9/11, everyone should realize the potential for terrorists to get this poison spewed into our air + water. Pat Patera
