Title: Nevada Division of Water Resources Well Log Database Well Log/Domestic Well Data - Mina Alignment

Author: Nevada Division of Water Resources

Date Created: 09/12/2007; 09/15/2007; and 10/24/2007

QA Level: NA

File listing: Adobe Acrobat® Files

Metadata: The data consist of the following:

1. All well log data for hydrographic areas crossed by the proposed Mina alignment – Data obtained on 09/15/2007 using the on-line NDWR Well Log Database Website Query Tool.

2. All well log data for additional hydrographic areas not crossed by the proposed Mina alignment but located within 9.7 kilometers (6 miles) of the centerlines of the proposed Mina alignment segments or within 6 miles of proposed new well locations tentatively identified as targeting a potential fault-associated groundwater zone – data obtained on 10/24/2007 using the on-line NDWR Well Log Database Website Query Tool.

3. Domestic well log data for existing domestic wells obtained on 09/12/2007 directly from the ACCESS® 2000 zipped data file downloaded from the on-line NDWR Well Log Database website on that date that are located either:

   a. Within 9.7 kilometers (6 miles) of the centerlines of the proposed Mina alignment segments or
   b. Within 9.7 kilometers (6 miles) of proposed new well locations for the Mina alignment tentatively identified as targeting a potential fault-associated groundwater zone.

State of Nevada
Department of Conservation & Natural Resources
Division of Water Resources
Tracy Taylor, P. E. State Engineer
