Comments: (If possible, please reference section number and/or page number in document if applicable.)

Are you nuts??

1 Atlanta: Huge city,
IP5/75: accidents DAILY & AT all hours

I do not want nuclear waste brought through
my neighborhood - especially when security
has been proven nearly non-existent, and levels
of radiation detected have been above what is
considered "safe."

2 You "should" have thought of disposal issues before you
made all this crap. STOP NUCLEAR PRODUCTION NOW!!

Please note: For your comment(s) to be considered in the Final Environmental Impact Statement, your comment(s) need to be received by the Department of Energy by February 9, 2000. To the extent practicable the Department will consider comments received after February 9.

Please feel free to attach additional pages; more postage may be needed. If you prefer to mail your comments, you may use the back side of this sheet as a postage-paid, self-mailer. To do so, fold in thirds along the dotted line so address and postage-paid notice are visible; then secure with tape.
