

RECEIVED

17

MR. LAWSON: That is the last

18

person that I have. I am wondering, is there

19

anyone -- Mr. Nester, would you like to make some

20

comments?

21

MR. NESTER: Yes, just one --

22

two.

/

1 As I mentioned, France tried burial in
2 solid medium and found it would fail. So they went
3 to China. They wanted China to take France's
4 nuclear waste, and France is 70 percent nuclear.
5 China said no.

6 But China is putting their nuclear waste
7 in Tibet for genocide purposes, because they want to
8 kill all the Tibetanese and take over the country.

9 But my last tip of the day is to buy stock
10 in Geiger counter companies. I think that will be a
11 going concern.
