Comment Text :
-->I am absolutly opposed to radioactive materials being shipped through the St. Louis area. Just 3 days ago (give or take one day) a train carrying coal derailed in Belleville, IL.(only a few miles from our city & home). The coal spilled into many people's yards, even knocking one house off it's foundations. We have railroad tracks about 1/4th mile from our own home (as do many people in this area). I shudder to think of what would happen if a train transporting nuclear waste derailed near here. Again, I am ADAMANTLY opposed to this!!! Thank you for your consideration. Joanne Arnold (By the way, they're still cleaning the coal up & expect it to take at least a full week to clean it all up.)
