U. S. Department of Energy
Office of Civilian Radioactive Waste Management
Yucca Mountain Site
Characterization Office
P.O. Box 30307, M/S 010
North Las Vegas, Nev. 89036-0307

- 1 I am in opposition to high level waste traveling thru St. Louis. I live less than 1/4 of a mile from the Union Pacific tracks and 1/2 mile from Interstate 44 in the lovely town of Kirkwood. I can't imagine a high level nuclear accident happening in this area.....everything totally deserted and with no compensation from insurance companies, since no homeowner policy covers a nuclear accident.
- 2 Also, many experts believe Yucca Mountain is not a good storage site. It is in a seismically active area and may not be able to isolate the waste for the many hundreds of years required. So, how can we even consider such a move?
- 3 Please keep these nuclear wastes on site at the nuclear plants in safe storage until a good long term solutions can be found.

Thank you,

Elizabeth Mathieu
