Dear Ms. Dixon:

1 [We are writing to express our alarm that the Department of Energy plans to transport radioactive waste on a railroad track in Webster Groves, Missouri, that is literally 300 feet from our front door. We have four daughters and are concerned not only about the catastrophic consequences of an accident, but the long-term affect on their health.

We oppose this plan and strongly urge your office to identify a safer, alternative means of disposing of this waste.

Sincerely,

Jeff and Jennifer Davis
