Comments: (If possible, please reference section number and/or page number in document if applicable.)

1 I think Yucca Mountain should not be used  
as a ~~new~~ place to store the countries ~~new~~ nuclear  
waste. What about the people, plant life, and animals  
that live within 20 miles of the ~~mountain~~ Mountain.  
Do they just die out because ~~the~~ other state  
can't live with the mess that they have made.  
I don't think that's fair. You can not just put  
a state in danger or ~~vacate~~ vacate it because  
the rest of the country thinks it's the best  
place. That is plain out selfish. Why not make  
the other states store their own waste and  
then they ~~couldn't~~ make more. It is not Nevada's  
fault or the people who live here to store the  
rest of the countries waste just because we don't  
have our own. And think about the Shoshone land.  
It has been ~~there~~ there for year, more years than

Please note: For your comment(s) to be considered in the Final Environmental Impact Statement, your comment(s) need to be received by the Department of Energy by February 9, 2000. To the extent practicable the Department will consider comments received after February 9.

Please feel free to attach additional pages; more postage may be needed. If you prefer to mail your comments, you may use the back side of this sheet as a postage-paid, self-mailer. To do so, fold in thirds along the dotted line so address and postage-paid notice are visible; then secure with tape.

this problem has been alive. Why  
destroy a culture or tradition to  
satisfy something that others are  
not even thinking all the way  
through. If this Yucca Mountain  
with all this nuclear waste were  
to active or go off, what do you  
think it would do to the people  
around it. There are 13 unactivated  
volcanoes around Yucca Mountain  
what if they were to reactivate because  
of an explosion. Yucca Mountain  
is very earthquake prone, what  
about that. It could activate the  
nuclear waste cost or ~~it~~ even break  
them then what.

Thank-you
