Comment Text :

1 | -->Yucca Mt is one of the most dangerous places to put nuclear waste that will exist
 forever. This site should never be approved, and I will continue to fight any attempt 2
 to ship our nations nuclear legacy to a parking lot there, while you and your
 scientists try to justify your existence. This is wrong, and will go down in history
 as one of the biggest wastes of tax dollars, and will make the Tobacco settlement look
 like peanuts. Look at our nuclear legacy throughout the country. We have waste dumps
 everywhere, look at Pahduca KY, Hanford WA, all of the nations nuclear reactors,
 Brookhaven National Leaky labs, and the other fine examples of how the government
 military and Nuclear industry have lied and exposed millions. You will lose!]
