MR. MILLER: My name is Vernon Miller, and I was recently elected back as chairman of the Fort Independence Reservation, Paiute, of Independence, California. And I would like to support the position that we took here which Richard Arnold just recently spoke. And I would also like to support some of the people that have -- all of the people that have spoken here this day. There's many things that sometimes we don't bring out. We pretty much are in support of one another in terms of this case. If the tribe wishes to make further statements, we will probably do so by letter and within the time limits.
