MS. McCracken: My name is Deborah McCracken from Amargosa Valley and I, too, want to complain about the timeliness and the -- with which we're receiving material and things that are happening.

We got less than a week's notice of this meeting, and yet when I go to your Website, I see that it was posted in November.

1 | We've been on your mailing list. Last -- when was it that you had your hearing on the Draft Environmental Impact Statement?

We received our copy of that after you held the public hearing in Amargosa Valley. I think that's deliberate. I think it's meant that the timing of your mailings are meant to keep the public in the dark, and I want to just go on the record strongly objecting to your timing. |

Thank you.
