Dear Ms Dixon;

1 I am writing to protest the Yucca Mountain Plan for storage of nuclear waste. There seems to be an unacceptable level of risk, including possible seismic activity, hydrology, risk of shipping the materials from all over the country, not to mention the violation of the treaty rights held by the Western Shoshone. Although disposal of nuclear waste is an incredible problem, indicated by the leakage going on near Handford, Washington, this is an unacceptable solution.

Sincerely,

Janet A. Moore
