--> Comment Text :
 To Whom It May Concern;

1 I do not agree with any hazardous waste or toxic materials being shipped by train or any other method through any of our states. I have my first grandson and would not want his safety jeopardized in any way. I also work with abused children and what you plan to do is not only crazy, it is not safe. Too much can happen, and we do have a lot of idiots working for our government, people who are not cautious nor careful. This is too dangerous to be driven or shipped through our beloved country. Try and think about the AMERICAN people for a change!!! Why would anyone take that risk? Accidents can and will happen, simply because someone is not doing what they are supposed to do. Please do not ship anything across country.

Thank You!

J. Laub
