1 I have visited the Yucca Mountain Information Center and tour of the site. Attending this tour really changed my mind about the project. I believe the waste needs to go somewhere and it looks to me like the Department of Energy has done an amazing job coming up with this site. I am not worried at all about a spill or accident with any vehicles transporting this radioactive material. I believe this area is the best suited for the disposal of high-level nuclear waste and I believe the Yucca Mountain facility will provide much needed jobs for that area.

Thank you.
