1 I know that when it is all said and done, we the little people who have lived here in Nevada for years and years will be the ones who suffer the consequences of storing Nuclear Waste materials at Yucca Mountain. No only will "we" who live here, but also our children's children. I also know that "we" the little people really don't have much of a say so about it, that all you bureaucrats are the ones who will make the final decision and what do you care, YOU don't live here. How would you feel having a Nuclear Waste dump in your back yard? I'm sure you wouldn't want it, as we do not.

I don't know what the answer is, I only know that "we" don't want it here in our back yard. Too much can happen and go wrong and only after millions and millions of people and animals have died will you bureaucrats realize quite possibly that it was the wrong thing to do.

Like I said, I don't know the answer, but please consider the idea of how you would feel if it were being put in your back yard!

Debra P. White
