--> Comment Text :  
I am, and always will be an opponent of nuclear waste storage  
in Nevada. I join with Senators Reid and Ensign in the belief  
that Nevada should not be made the United States nuclear landfill.  
There have been overtures by Native Americans, as well as Russia,  
to store nuclear waste, respectively, in their reservations or  
countries. I believe these options could be explored and evaluated,  
but, the most significant issue is that at this time there is no safe  
method to transport and store nuclear waste.

I believe the funding used to study site feasibility would be better  
used to expand and advance technology for recycling spent nuclear  
fuel.

Please add me to your list of Nevadans against nuclear waste in Nevada.

Sincerely, Jeffrey E. Steele
