Dear Ms. Hanlon:

I am opposed to the planned nuclear waste storage facility at Yucca Mountain. There are no safe places to store nuclear waste. Yucca Mountain is no exception. Nuclear waste will outlast any means we have to contain it. Once the mechanism of containment has broken down, the waste will escape and pollute the environment. That is the inevitable reality of nuclear waste. It simply cannot be stored safely for as long as it needs to be contained.

The only solution is to avoid making nuclear waste in the first place.

Sincerely,
Adam Whitney
