Re: Yucca Mtn. nuclear waste site

Dear Sir,

Even though I can't be at the meeting tonight I oppose the use of Yucca Mt. for a nuclear waste dumpsite. Nevada should not be considered a dumping ground for this or any other non-usable waste.

Please cut our losses now, and quit spending my taxes at Yucca Mountain, and come up with some other place. The nuclear waste should be re-processed right where it is generated as they do in Europe. It makes no sense to transport waste from all over the country to Nevada. If the Europeans can do it why can't it happen in the US?

Everything about the choice of Yucca Mountain as a nuclear waste dump smells of arrogance and deception. Please remember the DOE works for the taxpayers, not the nuclear industry.

We do NOT support of the use of Yucca Mountain as a nuclear waste dump.

Sincerely,

Mike Hazard  
13 yr Nevada resident
