Part of Records Package / Supplement / Correction

Carol Hanlon, Doe, Yucca Mountain Site Characterization Office

I have previously sent, by letter, my opposition to the imposition of the nuclear dump on the State of Nevada. I am again expressing my disapproval of the Dept. of Energy's desire to ship nuclear waste across the United States to store in this state. After the events of the past few days, are you really so naive as to believe that terrorists will not find ways to hijack these shipments? This plan is madness.
