**Comments:** (If possible, please reference section and/or page number in document if applicable.)

I do not want Yucca Mountain to become a high-level nuclear waste depository. I believe we should not be using nuclear energy, but rather be investigating other "clean" sources of energy - which we have the ability and know-how to do. Europe is doing it, and we should too. I also believe no one state should take the burden of all that waste from the others. If you use it - you keep it!! I also believe it (the waste materials) should not be transported.

Rebecca Stark

P.S. I think the State of Nevada should file a law suit to prevent this from happening, if necessary.

Please note: For your comment(s) to be considered by the Secretary of Energy before a decision is made whether to recommend the site to the President, your comment(s) need to be received by the U.S. Department of Energy by September 20, 2001. To the extent practicable, the Department will consider comments received after September 20, 2001.

Please feel free to attach additional pages; more postage may be needed. If you prefer to mail your comments, you may use the back side of this sheet as a postage-paid, self-mailer. To do so, fold in thirds along the dotted line so address and postage-paid notice are visible, then secure with tape.
