Comments: (If possible, please reference section and/or page number in document if applicable.)

Citizens of Nevada are told over & over how safe Nuclear waste is. IF that's the case, then why not keep it where its at?

I am very much against storing the waste at Yucca Mountain. The residents of Nevada don't want it.

We are people just like everyone else. We have families we love. We work to make ends meet. Once in a while we go out for a little fun. Don't citizens of Nevada ~~stand~~ deserve to continue their lives without fear of a nuclear accident.

Nevada is the 3rd earthquake state, behind California and Alaska. Gee, I can just see that so called "Safe" waste rumbling around if an earthquake hits.

Keep it out of Nevada - PLEASE!!

Please note: For your comment(s) to be considered by the Secretary of Energy before a decision is made whether to recommend the site to the President, your comment(s) need to be received by the U.S. Department of Energy by September 20, 2001. To the extent practicable, the Department will consider comments received after September 20, 2001.

Please feel free to attach additional pages; more postage may be needed. If you prefer to mail your comments, you may use the back side of this sheet as a postage-paid, self-mailer. To do so, fold in thirds along the dotted line so address and postage-paid notice are visible, then secure with tape.
