Comments: (If possible, please reference section and/or page number in document if applicable.)

I'm completely opposed to using Yucca Mtn. as a nuclear waste site. The health issues alone should negate the thought of doing this. I used to live in Western N.Y. & saw the problems & issues that came out of the Love Canal scenario. Peoples lives were destroyed. They had health problems, & had to abandon their homes.

The other issue is the potential hazard if there is a nuclear waste spill. What happens then? There are too many factors that can't be controlled. Other alternatives, such as recycling centers, near the sites, should be considered

Please note: For your comment(s) to be considered by the Secretary of Energy before a decision is made whether to recommend the site to the President, your comment(s) need to be received by the U.S. Department of Energy by September 20, 2001. To the extent practicable, the Department will consider comments received after September 20, 2001.

Please feel free to attach additional pages; more postage may be needed. If you prefer to mail your comments, you may use the back side of this sheet as a postage-paid, self-mailer. To do so, fold in thirds along the dotted line so address and postage-paid notice are visible, then secure with tape.
