September 19, 2001

Dear Sir,

I received your letter of August 28, 2001, requesting views and comments regarding Yucca Mountain. It is my view that the scientific documents, aspects, analysis, etc., of the Yucca Mountain site is not qualified for the preparation and submission of a construction license.

I believe Yucca Mountain should not be considered for a Repository. The parties that believe that the site is adequate are the ones that will receive the grants for the project. There is only one other place to build this Repository.

Well, you wouldn't listen anyway...

Thank you for your time.

John W. King
President-CEO
