Subject: Nuclear Waste Shipments

Part of Records Package / Supplement / Correction

- C.htm

Dear Ms. Hanlon,

I would like to be short and to the point. Now is NOT the time to be transporting nuclear waste through populated areas. I know that we are being told that it is safe. We thought that the World Trade Center was safe too! I implore you to do everything in your power to either not transport this highly dangerous cargo at all, or at the least, avoid major metropolitan areas at all costs. Now is not the time to blindly recite the company line to an every more skeptical public! Thank you for taking the time to listen to my concerns.

Mike Wilson
