Subject: Please do not transport nuclear waste through populated areas!!!!

Part of Records Package / Supplement / Correction

To the Department of Energy:

I am extremely concerned about the possibility of having nuclear waste transported through populated areas. We live very close to several train tracks and recently there was a train derailment in our community. This incident plus the recent terrorist attacks make the possibility of some kind of horrible incident with a hazardous shipment seem all to real. I beg you to reconsider this routing. Thank you. Deborah Bloom

Webster Groves,

Mo
