To. Honorable Carol Manahan D.O.E.

How can you be preparing to recommend Yucca mountain for a High Level Nuclear waste dump when thousands of public comments on the Draft Environmental Impact Statement have not been addressed? Without a Final Environmental Impact Statement, a detailed Transportation scenario or a Licensing rule, The Department of Energy lacks the basis for consideration of sight Suitability. The public can't have confidence in any recommendation that arises from such a dramatically flawed process: I urge you to abandon the Yucca mountain project.

Sincerely:

James F Cassidy Sr.
