

LISA SCOTT: Hello. My name is Lisa Scott,

OCT 04 2001

552289

19 L-i-s-a S-c-o-t-t, and I'm standing here tonight because
20 I heard on the radio last night that this would be
21 happening, so I came and decided that I'm no longer going
22 to be passive, I'm going to fight against this.

23 I apologize to my fellow Nevadans for not
24 having the time to do any research on this myself, but I
25 can tell you from my studies in my calculus class that I

111

1 am taking this semester, we are studying carbon-14
2 dating. In there we learn about decay of things that
3 have already died. Well, those numbers got to us from
4 the great biologists of the past. Those numbers no
5 longer hold true as of 1940, so obviously nuclear waste
6 is changing everything, including how will we see the
7 history behind us.

8 Nevada has an awful lot of earthquake faults
9 that need to be taken in consideration, and I will not
10 tolerate this and neither will my Nevadans.
