17 The lady walked up and asked you a question,
18 and obviously you don't want to answer any questions. I
19 watched stuff on Cape Cod, I've known people that work
20 for the Plymouth 1 nuclear power station. They were
21 going to build Plymouth 2. A friend of mine worked there
22 for just a few months, couldn't work there any longer
23 because of the rads that his body was taking. They
24 closed it down. Because of a management situation, it
25 closed down. Plymouth 2 was never built.

148

1 I went to New Hampshire. In New Hampshire
2 they were building a new power plant on the only piece of
3 beach that New Hampshire had. The people did not want
4 it. They still built it.

5 Boston, they said, you try out all the safety
6 stuff from Boston to protect us that you're supposed to
7 have in the rules and regulations. They did not work,
8 they changed the regulations, they opened it up.

9 You're sitting here, you are listening to these
10 people. You have got a look on your face like, I don't
11 care what these people are saying, we're going to do it
12 anyway, and that's what everybody does all the time, and

Tom Davis

Reno Public Meeting
October 4, 2001

13 that's what I want to say.
