AMY SCAFFIDI: My name is Amy Scaffidi, A-m-y

13 Supposedly all this nuclear waste is safe,

14 quote, unquote. I've heard multiple people say they've

15 heard other people say, oh, we've transported it and it's

16 safe and blah, blah, blah. Why is that? Why does it say

17 "Danger"? That tells me -- I've learned since the time I

18 was a little girl, danger means not safe, and this sign

19 means bad. That's all.

20 Thank you.
