Subject: Yucca Mountain National Repository Site for High-Level Radioactive Waste and Spent Fuel  
Part of Records Package / Supplement / Correction

Dear Ms. Hanlon:

I am writing to you asking for your support and recommendation by the Department of Energy to President Bush that Yucca Mountain, Nevada be designated the national repository for high-level radioactive waste and spent fuel. As you most likely know scientific evidence indicates that Yucca Mountain meets or exceeds the criteria for this type of facility.

As a ComEd employee I obviously have a direct interest in this issue, however as a concerned citizen we must move forward on this issue and begin to develop a comprehensive energy strategy.

Thanks for your time and please support Yucca Mountain site to the President.

William M. Griffin
