Dear Ms. Hanlon,

How can the Secretary of Energy be preparing to recommend Yucca Mountain for a high-level nuclear waste dump when thousands of public comments on the Draft Environmental Impact Statement have not been addressed? Without a Final Environmental Impact Statement, a detailed transportation scenario, or a licensing rule, the Department of Energy lacks the basis for consideration of site suitability.

The public cannot have confidence in any recommendation that arises from such a dramatically flawed process. I urge to abandon the Yucca Mountain project.

Sincerely,

Diane Fountain
