Subject: Yucca/Toxic Waste Dump

Part of Records Package / Supplement / Correction

- C.htm

552813

Dear Sir or Madam:

It is wrong to store this waste here as everyone knows. I am against it as I worry about my children. I do understand it needs to go somewhere. Each state should be responsible for their own waste. If it all ends up here in Nevada, the other states should pay each of the southern Nevada residents in realm of \$50,000.00 each. (Every time I take a truck load to the dump I have to pay.) If this is not satisfactory they can keep their trash in their own back yard and pray every day and night that they don't get poisoned by it like we will. I think this falls under the ruling of condemnation without compensation, I think my Mayor may want to look into that. Its illegal and immoral. Thank you for your consideration.

F. V. Nelson
